Subject: Customer Notification of Implementation of DuPont Liveo™ Brand

Dear Valued Customer,

DuPont has been dedicated to providing excellent Silicone chemistry, materials and solutions to the healthcare market for more than 70 years. We have made the decision to unite our offering under the new DuPont™ Liveo™ brand name. This brand name change should occur by end of **November 2020** on the following ERP-issued documents: Certificate of Analysis (COA), Safety Data Sheet (SDS), Label, Invoice and Delivery Note. The annex attached to this letter gives you an example of COA, SDS, and label as they will appear after November 2020.

During the transition period, until existing inventories are depleted, and because certain products may have been produced prior to the name change, you may receive products labelled with both the former brand name (example: DOW CORNING™, SILASTIC™) and the new brand name (DuPont Liveo™), potentially in the same shipment. This information is still legally valid and can be accepted as normal. At the same time, the corresponding ERP-issued documents will include the new DuPont Liveo™ name as noted above. Additionally, certificates of chemical equivalency will be available upon request from your sales representative.

It's important to note that while our brand name may be changing, our products and the packaging material are not changing, and all our locations will continue to manufacture the same products, using the same processes as before.

DuPont values you as a customer and we appreciate your support and your business as we go through this transition. If you have any questions or need further information, please contact your DuPont sales representative.

Sincerely,

Springael Sabine
Global Healthcare Steward
